# Checklist

## **For All Instructors**

Work that is needed in order to use sample homework sets:

- Request Course. (See page 2.)
- Modify Time Zone. (See page 3.)
- Upload Materials and Import Homework Sets. (See page 4.)
- Adjust Open, Due, and Answers Available Dates. (See page 6.)
- Create Roster, Upload It, and Enroll Students in Course. (See page 8.)
- Assign Homework Sets to Students. (See page 12.)
- View and Download Scores. (See page 14.)

## **For Advanced Users**

Additional work that is needed in order to make more extensive changes:

- Edit Homework Set Data. (See page 16.)
- Add Problems to Homework Sets. (See page 19.)
- Edit Course Information, Set Header, or Problem Source Files. (See page 21.)

# For All Instructors

## Request Course

In order to use WeBWorK with hosting provided by the MAA, you will need to complete the WeBWorK Course Request Form at <http://forms.maa.org/r/webwork/add.aspx>. When your course is created, you will receive the URL for the course as well as your initial login. A link to your course will also be posted on <https://courses.webwork.maa.org/webwork2>.

# Modify Time Zone

1. Click "Course Configuration."

WeBWork → pima\_math174\_mendel → Instructor Tools → Course Configuration

# Create Roster, Upload It, and Enroll Students in Course

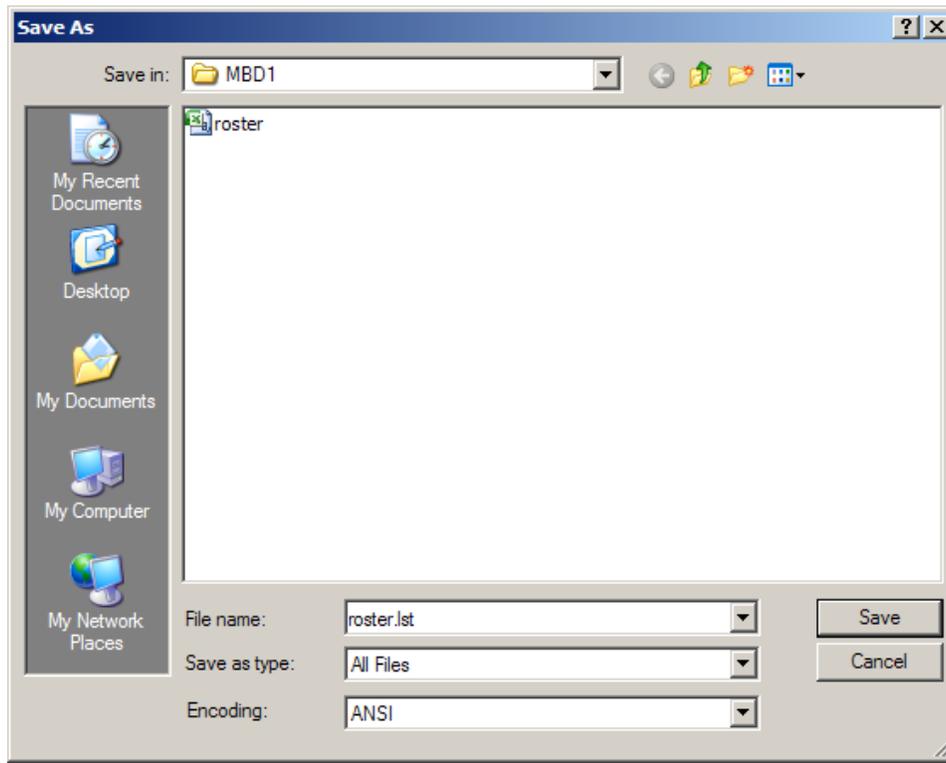

## Create Roster

- Open *roster.csv*.
- In one row for each student, enter the information shown below.

	A	B	C	D	E	F	G	H	I	J	K
1	#student_id	last_name	first_name	status	comment	section	recitation	email_address	user_id	password	permission
2	00000001a	Student	Sample						sstudent		

- The student ID must be unique; it will be used as the student's initial password.
  - The last name may be left blank.
  - The first name may be left blank.
  - The status should be left blank; it will automatically be set to C (Enrolled).
  - The comment is not used by WeBWork.
  - The section may be left blank.
  - The recitation may be left blank.
  - The e-mail address may be left blank; if one is provided, then it will be used as the sender's address for feedback sent via the Email instructor button.
  - The user id must be unique and may contain only letters, numbers, hyphens (-), underscores (\_), periods (.), and at signs (@). This is the username that the student will use to log in to WeBWork.
  - The password should be left blank; it will initially be set to the student's ID.
  - The permission should be left blank; it will automatically be set to 0 (student).
- Save and close *roster.csv*.

- Change the file extension from .csv to .lst. If the file extension is not visible, then make the appropriate change to the Folder Options on the computer or open the file with Notepad and then save it as *roster.lst*.

Assign to All Current Users | *This action can take a long time if there are many students.*

Do not uncheck students, unless you know what you are doing.  
There is NO undo for unassigning students.

When you unassign by unchecking a student's name, you destroy all of the data for homework set **HW\_01** for this student. You will then need to reassign the set to these students and they will receive new versions of the problems. Make sure this is what you want to do before unchecking students.

Force problems to be numbered consecutively from one (always done when reordering problems)

This page is where the problems can be reordered, problems can be deleted, problems can be marked correct, the weight of a problem can be changed, and the maximum number of attempts allowed for a problem can be changed. When problems are deleted, click “Force problems to be numbered consecutively from one” at the bottom of the page to avoid gaps in the numbering of the problems.

# Edit Course Information, Set Header, or Problem Source Files

## *Edit Course Information File*

The image shows a two-step process for editing course information. Step 1: A navigation menu titled "Main Menu" is displayed. The menu items are: Courses, Homework Sets, Password/Email, Grades, Instructor Tools (with a sub-menu containing Classlist Editor, Hmwk Sets Editor, Library Browser, Statistics, Student Progress, Scoring Tools, Email, File Manager, and Course Configuration), Help (with a question mark icon), and Report bugs. A yellow callout box with the text "1. Click 'Homework Sets.'" points to the "Homework Sets" link. Step 2: A course information page is shown. The page title is "Course Info [edit]". The main content area displays "Mathematics for Business Decisions" in a large, bold font, followed by "Part 1: Probability and Simulation" in a slightly smaller, italicized font. A yellow callout box with the text "2. Click 'edit' to open the file in a new window." points to the "[edit]" link in the page title.

1. Click "Homework Sets."

2. Click "edit" to open the file in a new window.

A fair die is rolled twice and the number of spots on the upper face is
recorded for each roll. We can take all possible pairs of numbers, each of
which is between 1 and 6, as our sample space, \{ S \}.
